

Forward Looking Statements

- Except for historical information, the statements made in this presentation constitute
 forward looking statements. These include statements regarding the intent, belief or
 current expectations of GE Shipping and its management regarding the Company's
 operations, strategic directions, prospects and future results which in turn involve
 certain risks and uncertainties.
- Certain factors may cause actual results to differ materially from those contained in the forward looking statements; including changes in freight rates; global economic and business conditions; effects of competition and technological developments; changes in laws and regulations; difficulties in achieving cost savings; currency, fuel price and interest rate fluctuations etc.
- The Company assumes no responsibility with regard to publicly amending, modifying or revising the statements based on any subsequent developments, information or events that may occur.

A year of record performance

- Total income of Rs. 2119 cr.up by 48%
- **PAT at Rs. 809 cr. up by 72%**
- **EPS of Rs.42.34 (PY Rs.24.29)**
- **Whighest ever equity dividend payout of Rs. 194.24 crores (includes tax)**

The Market-CY 2004

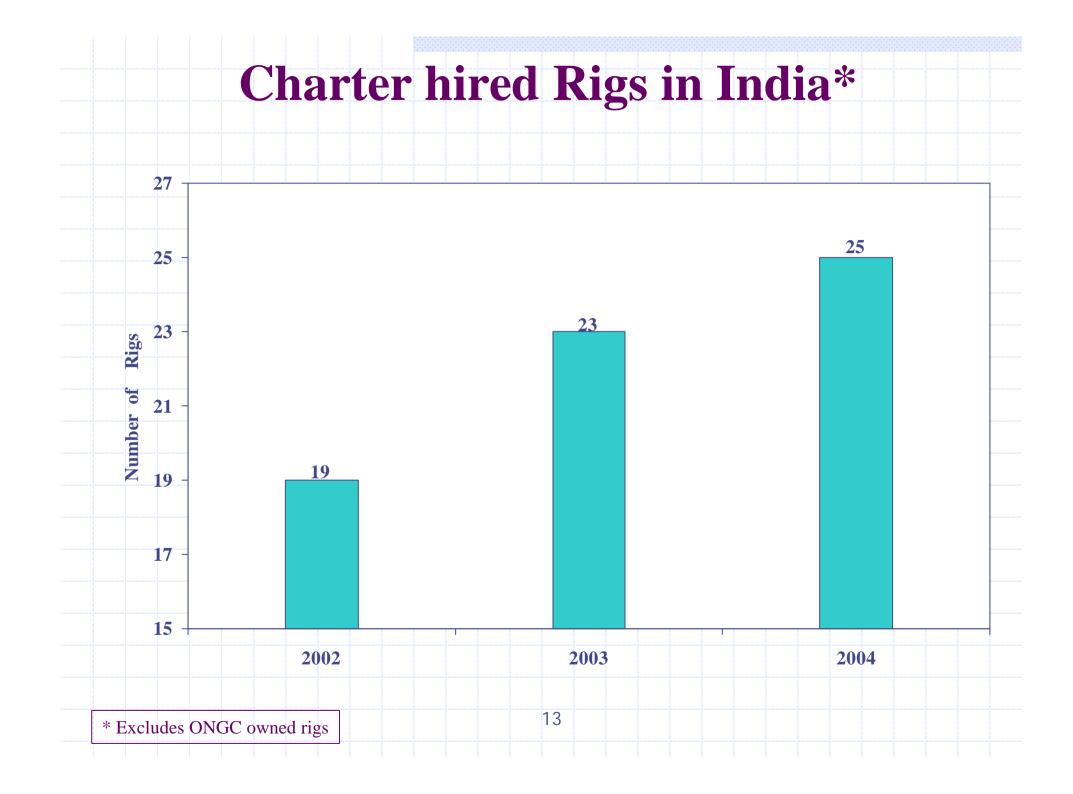

- Demand for rigs rose :
 - ✓ Worldwide by around 6%
 - ✓ In India by around 9%
- Utilisation and day rates improved
 - ✓ <u>Rig utilisation by around 5%</u>
 - ✓ PSV utilisation by around 4%

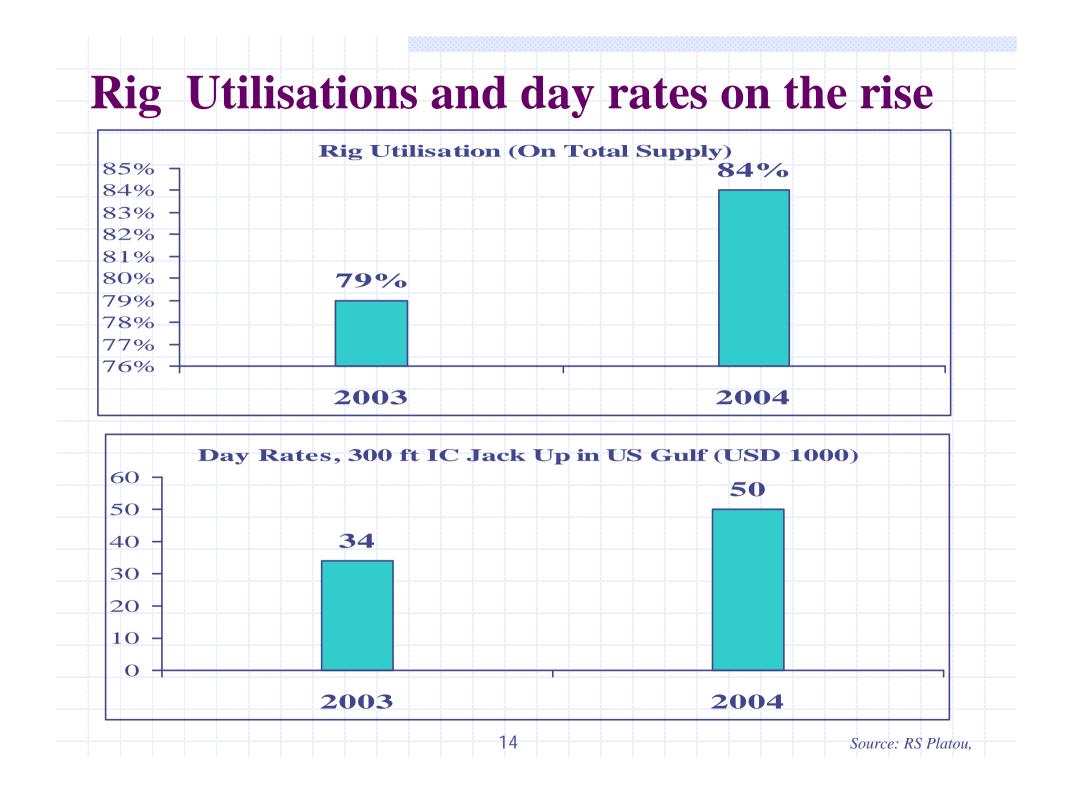

India, Mexico, Russia, and West African countries initiated plans for oil security

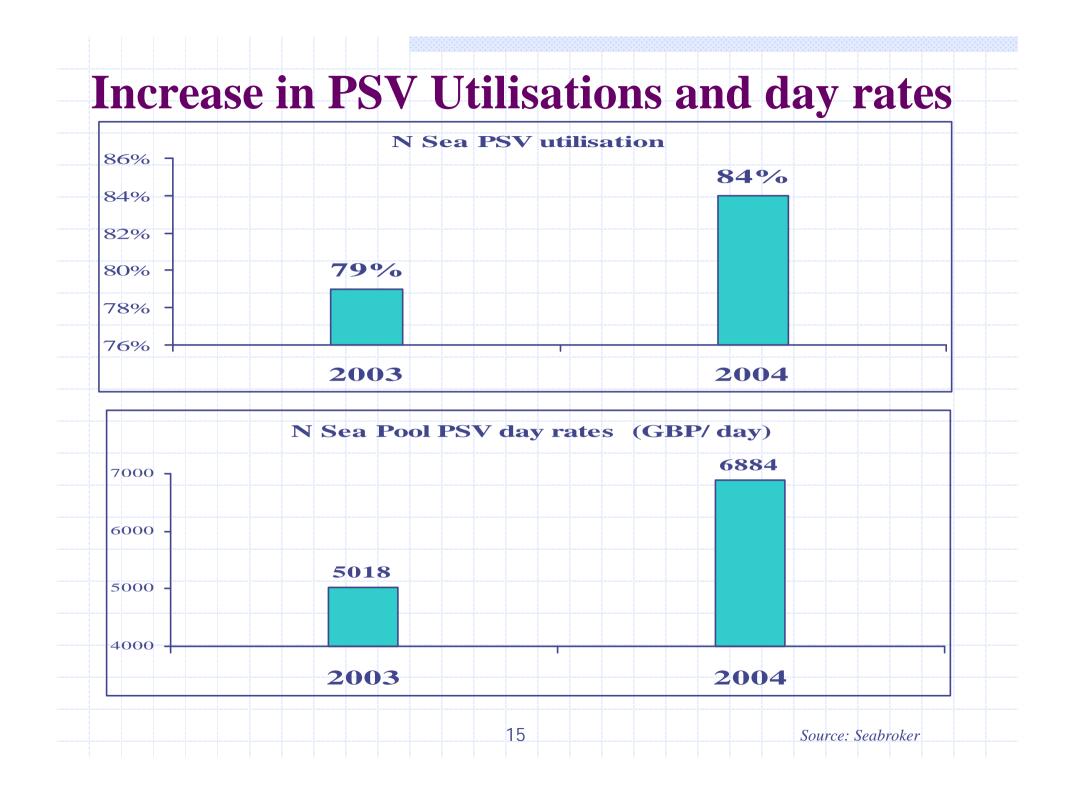

♦ Of the 20 blocks offered under NELP V, 8 are offshore

ONGC's success in deep-water exploration campaign "Sagar Samriddhi"

Overview of the year - 2004-05

Enhanced the OSV fleet - deep water capability

♦ Ordered new building – 2 AHTSVs and 2 PSVs

Increased operational presence in North Sea / Middle East with major international operators

 3 yr contract for Kedarnath renewed at higher rates commencing October 2005

Market Outlook CY 2005

Increased pressure to explore and produce oil

World oil estimates 6% increase in offshore drilling activities

Budgetary allocations of oil companies reconsidered

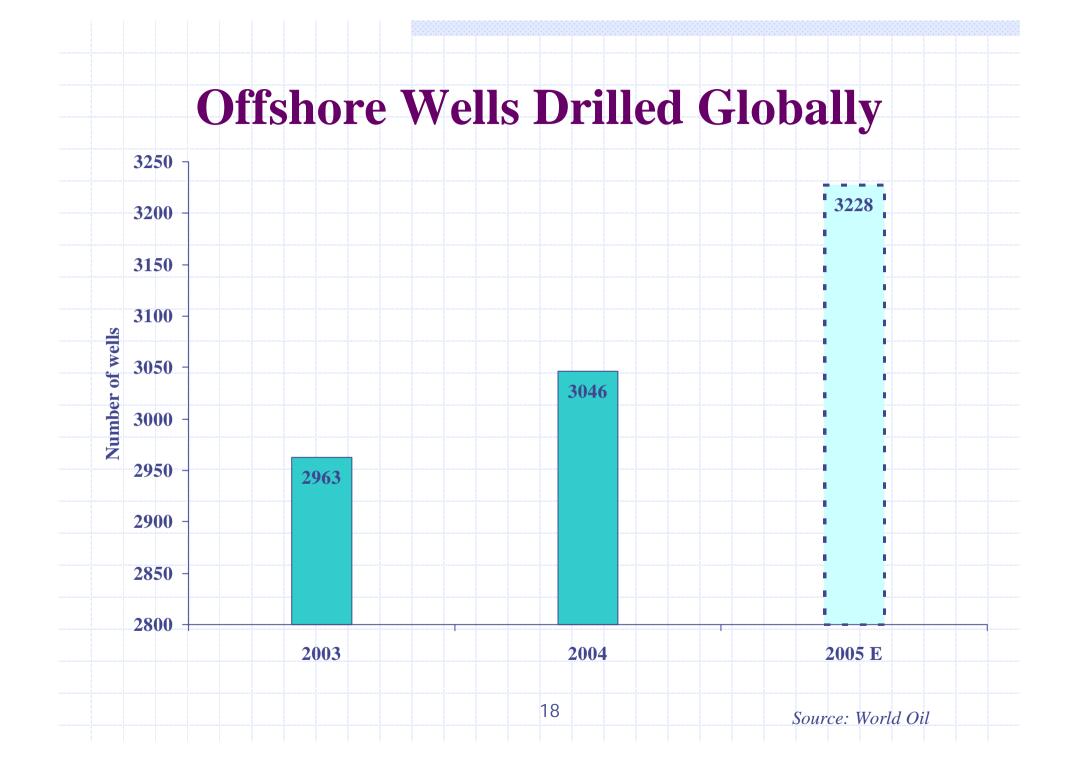

Thrust on reserve accretion

Marine construction market to absorb more vessels

Increased activities envisaged in platform maintenance and allied jobs

OSVs expected to witness improved utilisations

Earnings from Harbour Tugs business to remain satisfactory

Addressing Business Concerns

Restricted marketability of older assets

- Adapting to clients specific requirements through upgradation
- Building an OSV fleet through NB orders 4 New Buildings to join the fleet

19

during the year

Increasing competition from foreign flags

- Diversifying risk by increasing operational presence in global markets
- Leveraging on domain expertise repeat business

The Emerging Scenario !

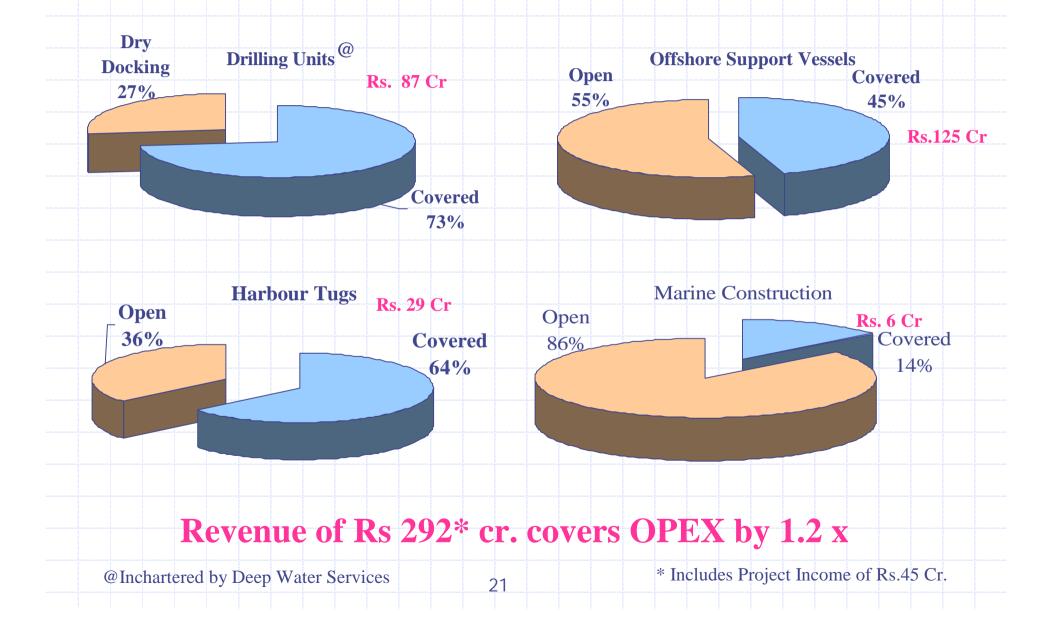

International Market

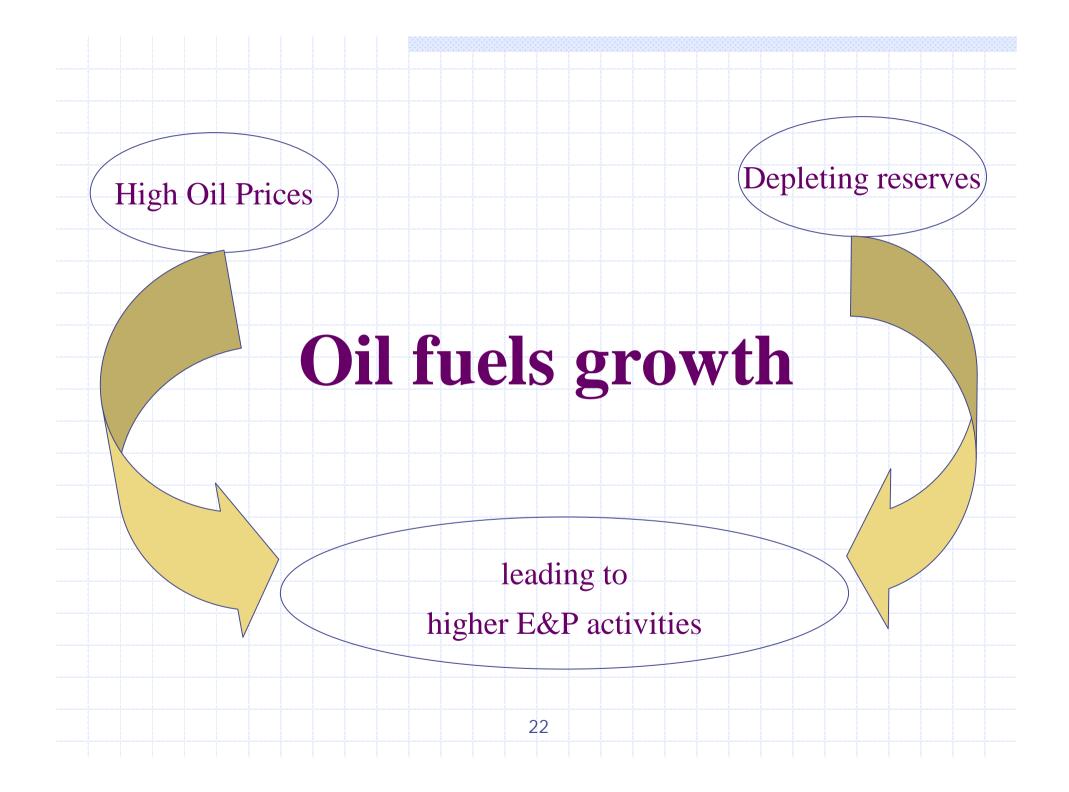

- High oil & gas prices and reducing large opportunities resulting in increasing pressures on oil companies to explore & produce
- Major increase in oil co. spending underway. In 2005, initial indications of 8-10% growth
- Strength in rigs market to continue through 2005 with companies unfurling exploration plans

Domestic Market

- ONGC has committed USD 2 bn in 2005 for its exploration campaign
- Commitment by Reliance, GSPCL, BGEPIL, Cairn towards increased activities is apparent from their budgetary allocations

Revenue Visibility: FY 2005-06

2004-05: The year of the ship owner

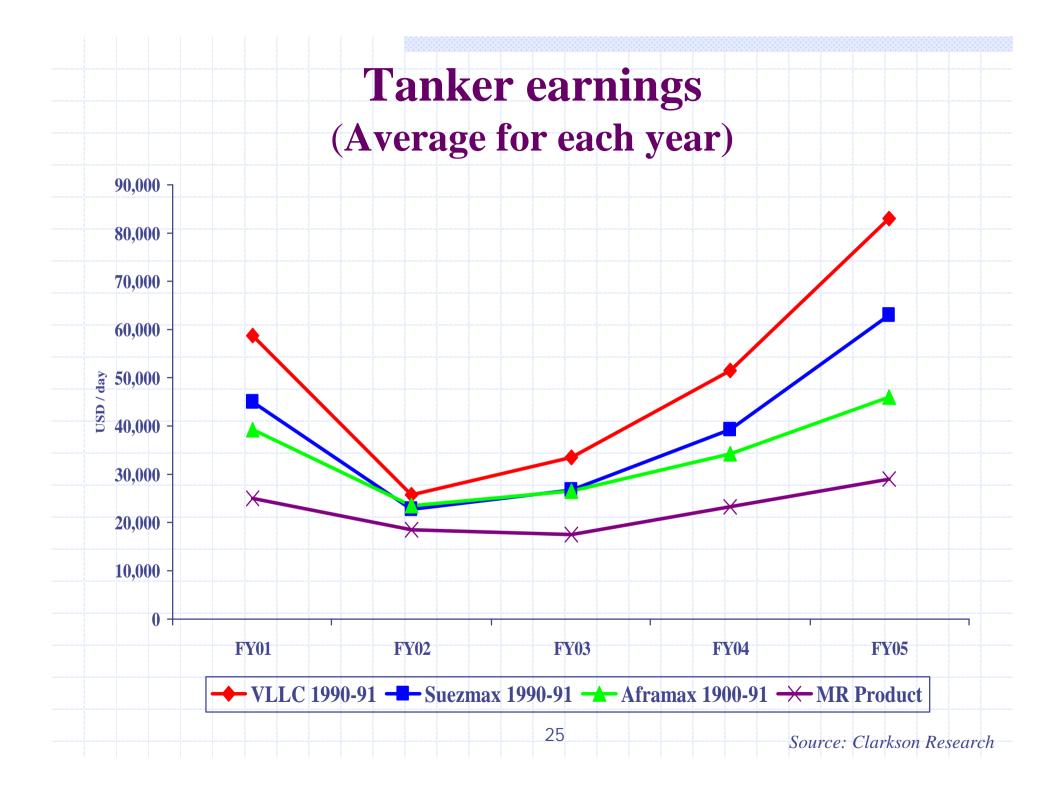

BHMI was up by 32 %

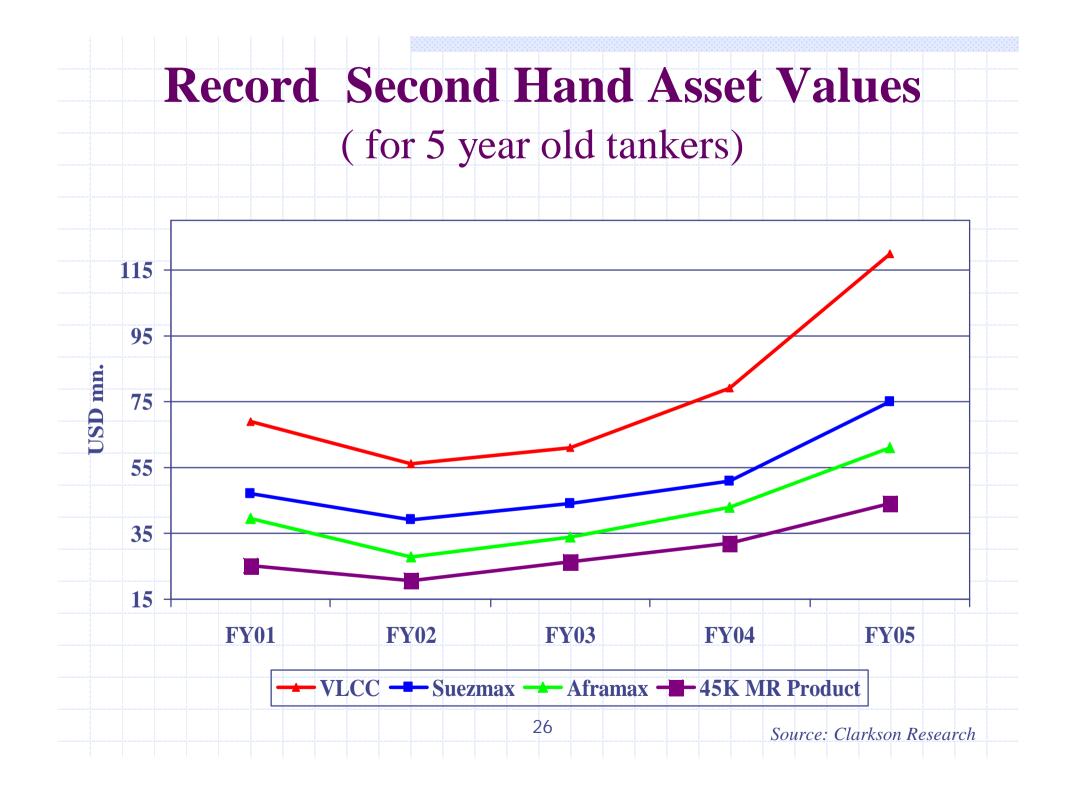

TankerDrybulk

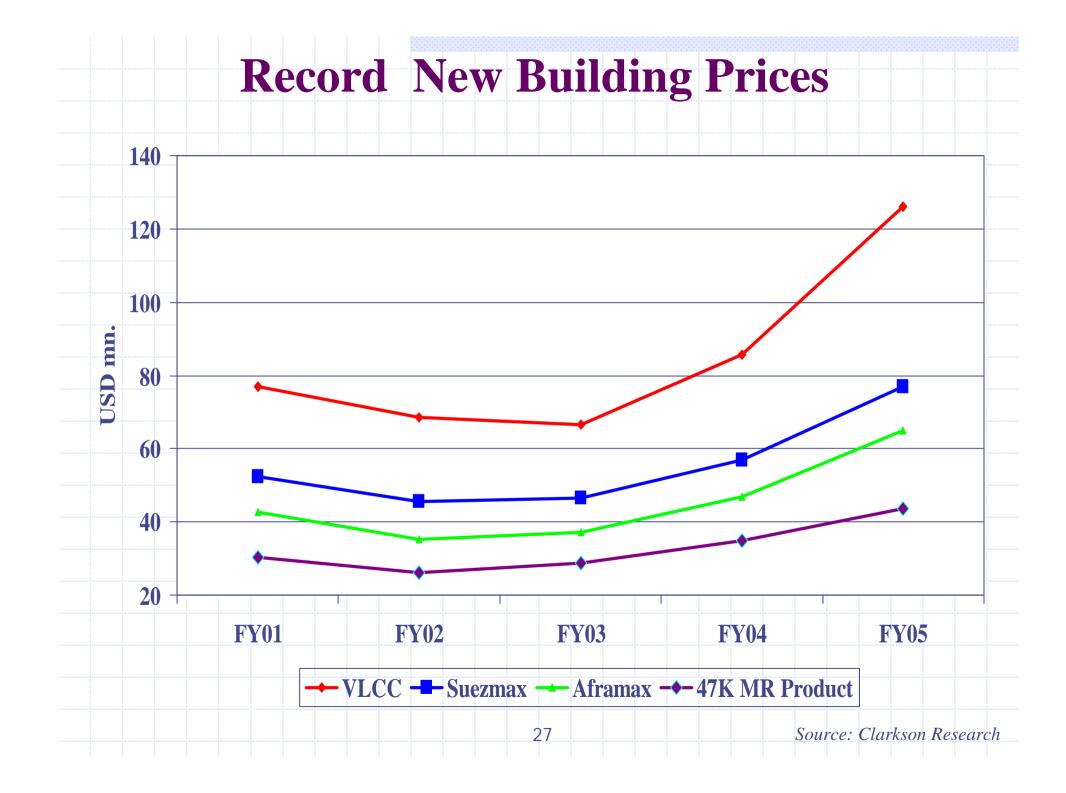

- BDTI was up by 26 %
- Second hand values gained 35% Second hand values gained 45 %
- NB price Index up by 32 %
 NB prices up by 32%

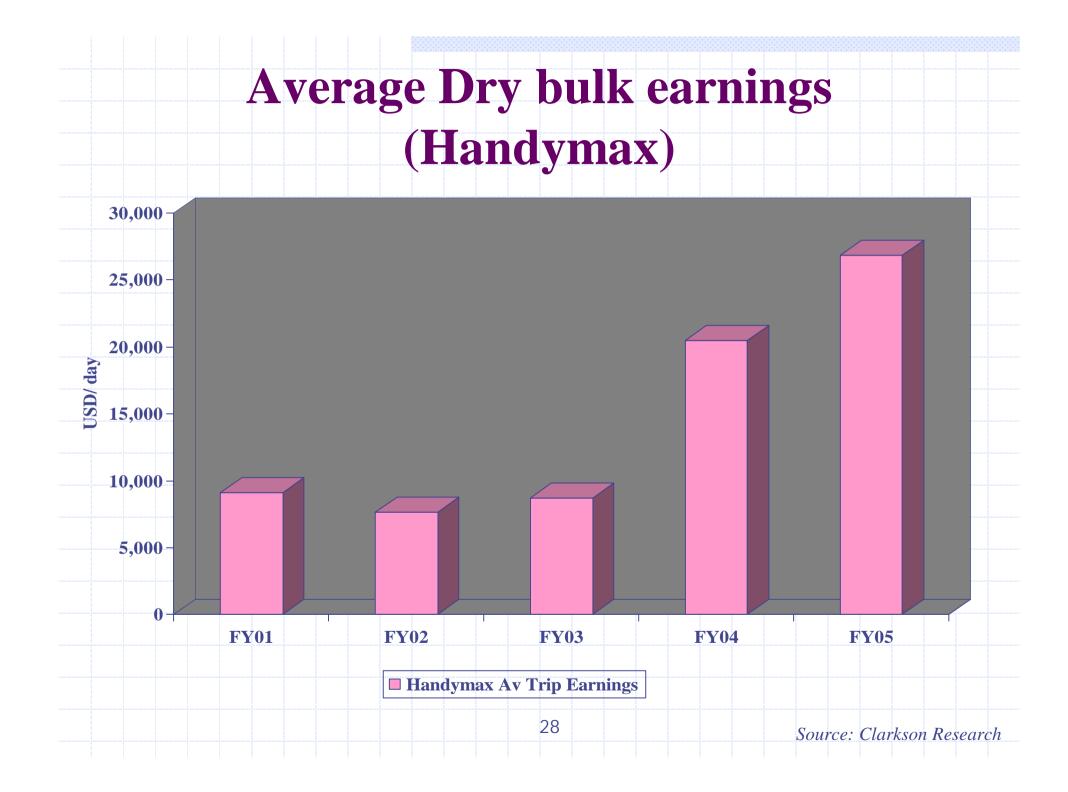

Container

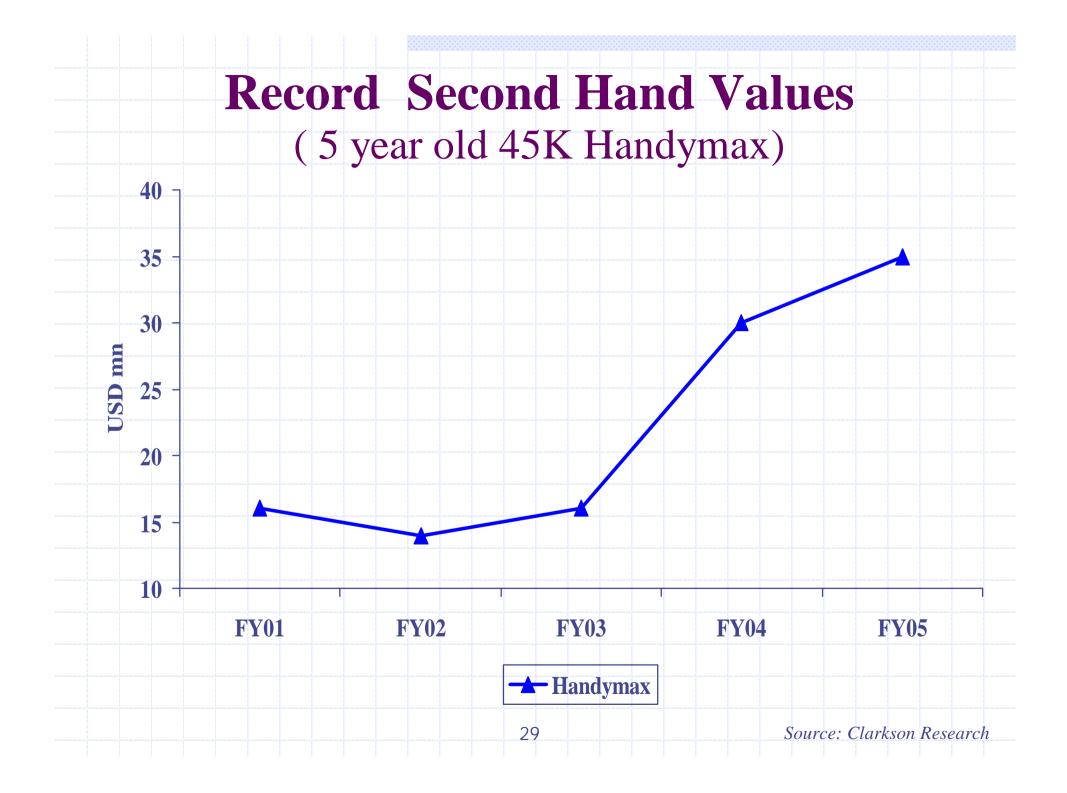

- Earnings were up by 52%
- 10 yr second hand values 57%
- NB prices up by 26%

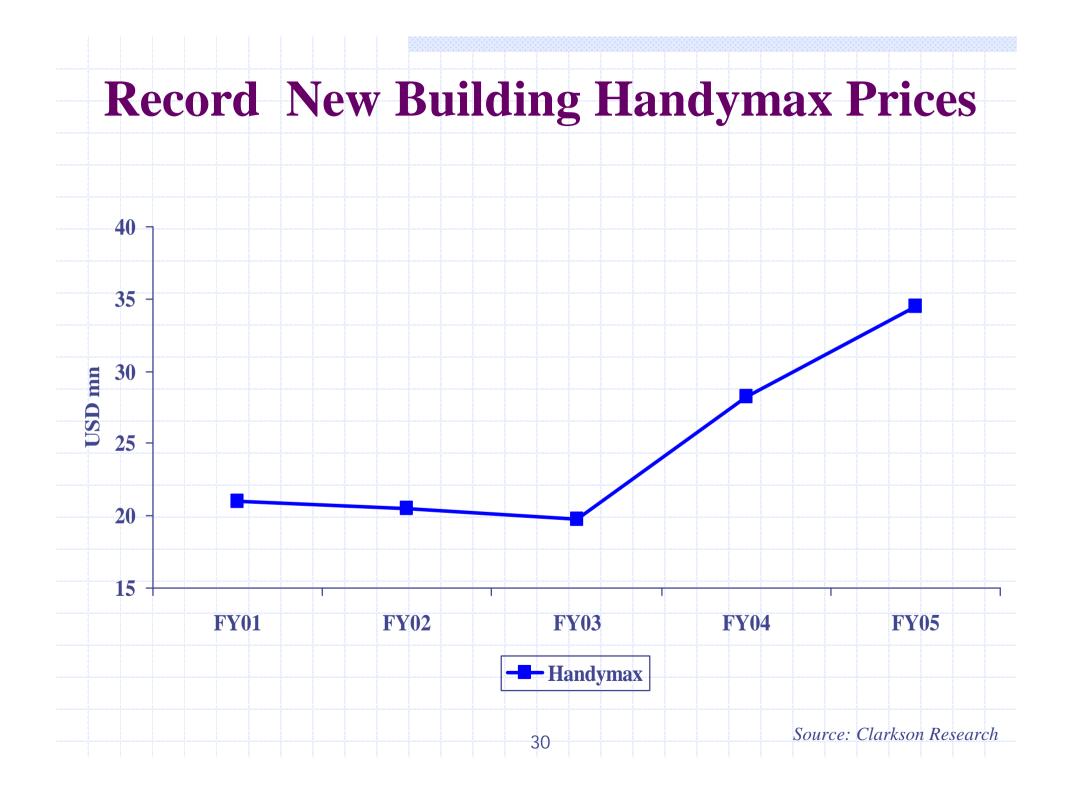

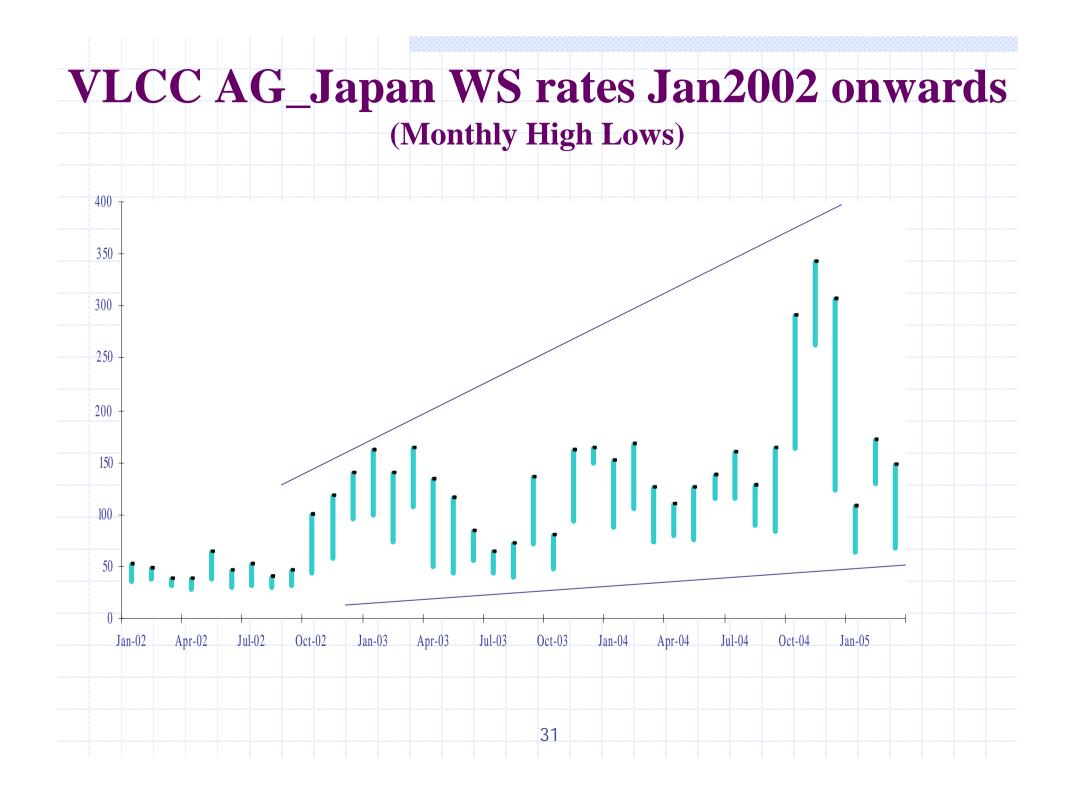

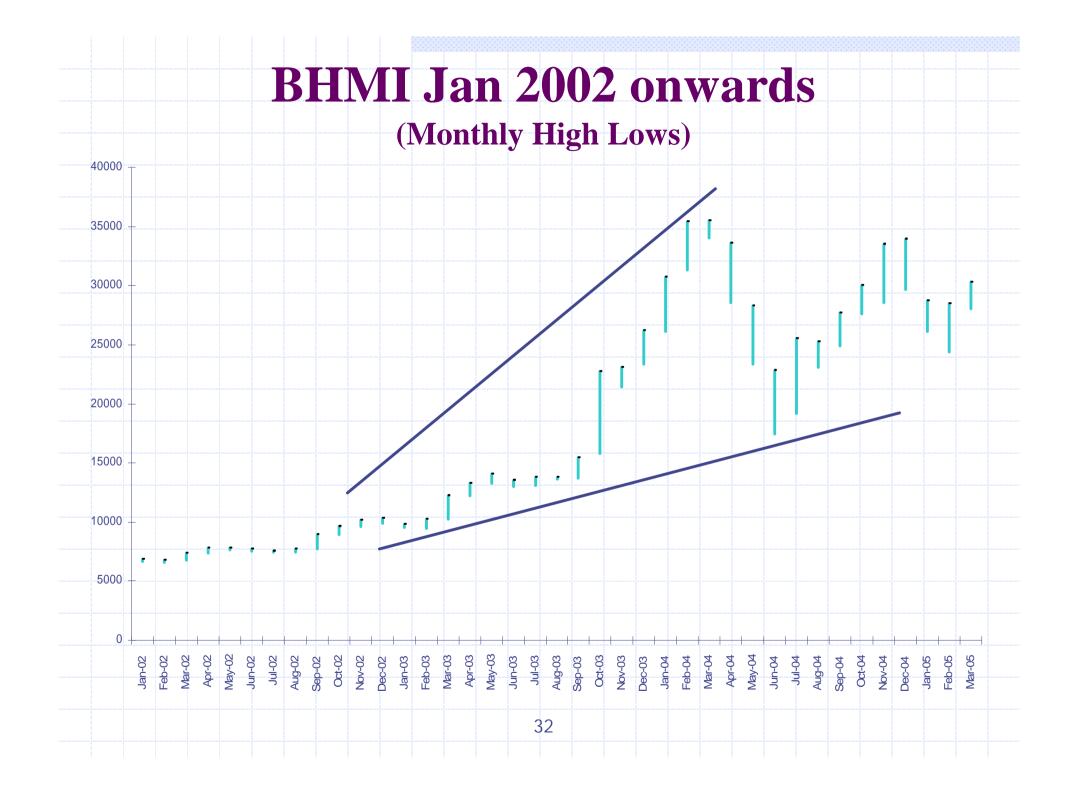

Overview of the year - 2004-05

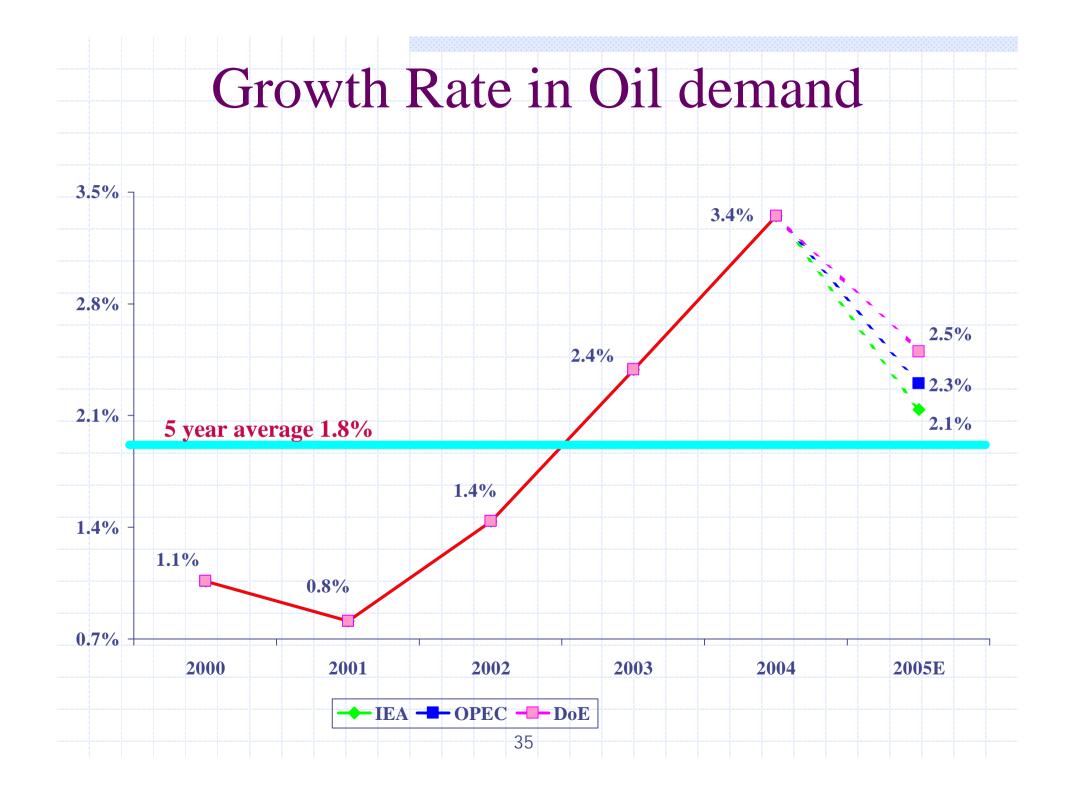

- Tonnage crossed 3 Mn dwt mark (growth of 22%)
- Capex committed / spent USD 291 mn
- Contracted 3 NB MR Product tankers and acquired 3 second hand tankers
- Contracted 3 modern Handymax dry bulk carriers
- Enhanced inchartering exposure
- Time Charters renewed at higher rates commencing FY2005-06 onwards

Market Outlook CY 2005

Tankers:

- Oil demand growth above 5 year averages but below last year
- ∠ 4% growth in tonne mile demand expected
- Expected deliveries 30 mn dwt; Net fleet growth of 6 -7%

- Quantum of scrapping important
- Healthy spot rates expected
- ∠ Asset values to remain firm

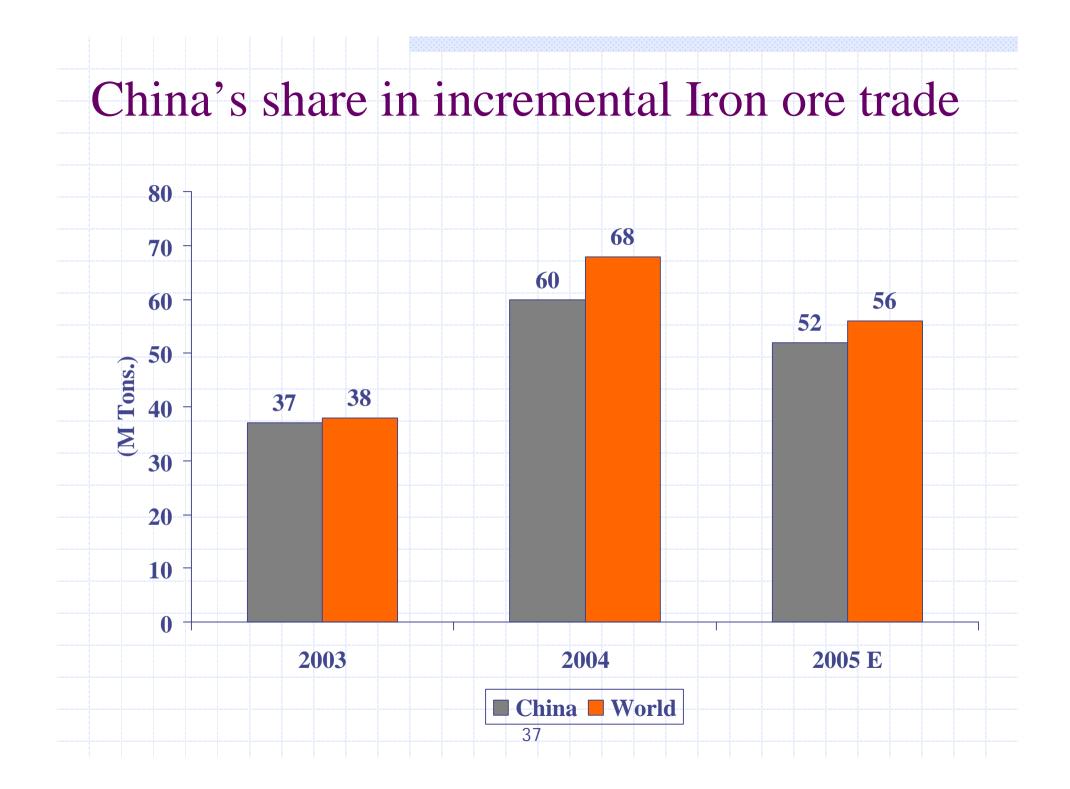

Market Outlook CY 2005

Dry Bulk:

- China to drive trade
- ≈ 6 % growth in tonne-mile demand expected
- Expected deliveries 20 mn dwt; Net fleet growth of 7%

- Scrapping to remain minimal
- Healthy spot rates envisaged
- Asset values to remain firm

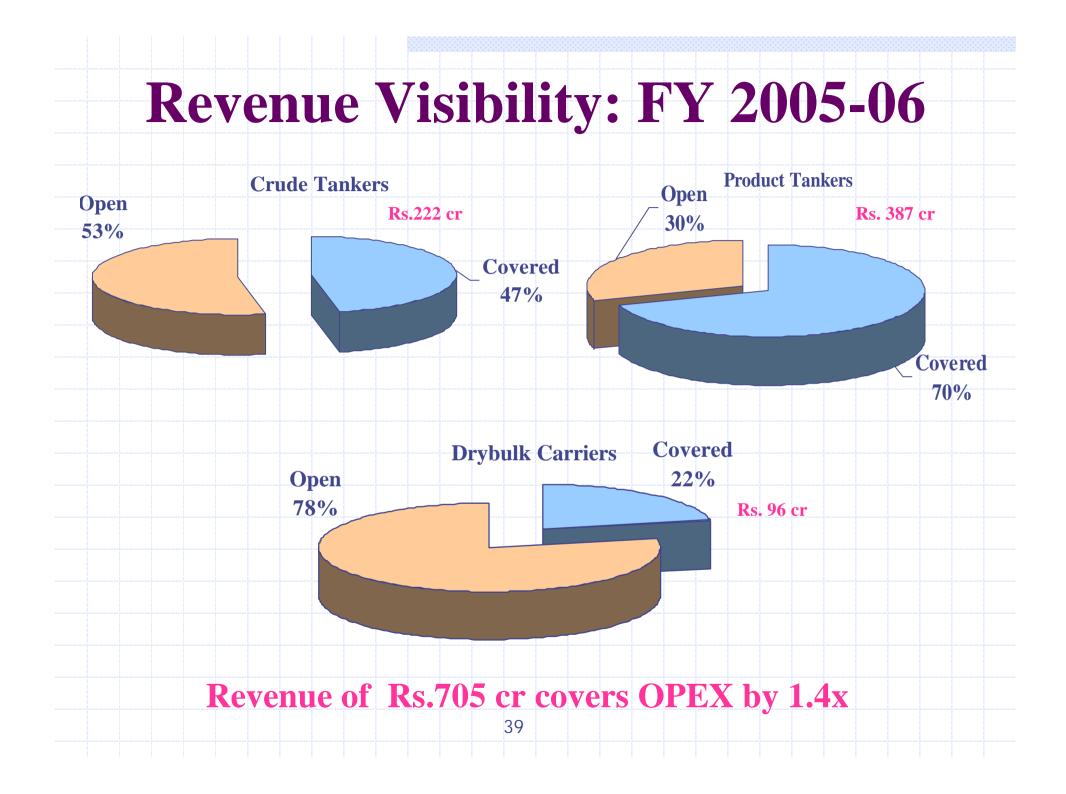

Potential Risks & Upsides

- **TANKERS**
- RISKS
 - Slower than anticipated growth in oil demand
 - Low scrapping
- UPSIDES
 - ∠ Disruption in supply
 - ∠ Harsh winter
 - Decline in production in consuming areas

DRY BULK

- RISKS
 - Slowdown in steel sector particularly China

- UPSIDES
 - 🖉 China surprises yet again
 - Port congestion builds

Business Philosophy

Growth at the "right" price

Lower break evens enabling sustenance through downturns with strong

- upside potential
- Managing risks
 - Blend of Spot & Period covers
- Suild capacity through operating leverage

Timing acquisitions and orders
